Goat User Stories @GoatUserStories · 26 Aug 2015

As a goat, I want good translation services so that I can ask "Como se llama?" with ease.

46

Goat User Stories @GoatUserStories · 5 Nov 2015

As a goat, I want transparency for the herd so that I can bleat about having to attend these big pointless meetings.

Goat User Stories @GoatUserStories · 8 May 2015

As a goat I'm skeptical when the herd says something can't be scaled [flic.kr/p/9Us7RG](https://flic.kr/p/9Us7RG)

# User Stories

# Demo Site

- Drupal 8 core
- Bootstrap subtheme
  - <https://www.drupal.org/project/bootstrap>
- Content types
  - Page
  - Article
- View modes
  - Full
  - Teaser

# Google Fonts

**mytheme.info.yml**

libraries:

- mytheme/google-fonts-css

**mytheme.libraries.yml**

google-fonts-css:

css:

base:

css/font-family.css: {}

<https://fonts.googleapis.com/css?family=Comfortaa>: {

type: external}

**css/font-family.css**

body {font-family: 'Comfortaa', Georgia, serif;}

# New on Content Types

- New fields in core
  - Entity reference
  - Date
  - Link
  - Email
  - Comments (Fieldable field!)
- Properties are now fields
- New manage form display

# Image Gallery

As a manager, I want to be able to create custom image galleries.

# Display Modes

- View modes
  - `/admin/structure/display-modes/view`
- Form modes
  - `/admin/structure/display-modes/form`
- D7 comparison
  - Entity View Modes
  - Display Suite

# Promos

As a brand manager, I want to promote internal content. I want editors to select items, and control their order and display.

# Blocks

- Blocks are fieldable entities!
  - `/admin/structure/block/block-content`
  - `/admin/structure/block/block-content/types`
- D8 Contrib suggestion
  - Block Visibility Groups module: [https://www.drupal.org/project/block\\_visibility\\_groups](https://www.drupal.org/project/block_visibility_groups)
- D7 comparison
  - Beans
  - Context

# Simple Promo Blocks

- Create custom block type with entity reference field
  - One for a simple list
  - One for rendered view with custom view mode

# Customizable Promos

- Inline Entity Form: [https://www.drupal.org/project/inline\\_entity\\_form](https://www.drupal.org/project/inline_entity_form)
- Wrapper promo content type
- Custom form display for articles

# Feedback and surveys

As a brand manager, I need feedback from site users. I want the ability to change questions and add new forms and surveys.

# Contact Forms

- Contact forms are fieldable entities!
  - /admin/structure/contact
  - /admin/structure/contact/manage/feedback/fields
- D8 Contrib suggestion
  - Contact storage module: [https://www.drupal.org/project/contact\\_storage](https://www.drupal.org/project/contact_storage)
- D7 comparison
  - Lightweight Webform??

# Rest Endpoint

As a manager, I need to expose site information from a rest endpoint so it can be used in javascript and apps.

# Rest

- Views
  - Add a 'Rest' display on a view
- Rest endpoints
  - `/node/1?_format=json`
  - `/node/1?_format=hal_json`
  - `/node/1?_format=xml`
- Contrib suggestion:
  - Rest UI module: <https://www.drupal.org/project/restui>
  - Configure at: `/admin/config/services/rest`

# Field Blocks

As a designer, I want to emphasize some fields by displaying them in the sidebar.

# Views Configuration

As a designer, I need to configure each instance of a views block differently, depending on where it's displayed.

# CTools

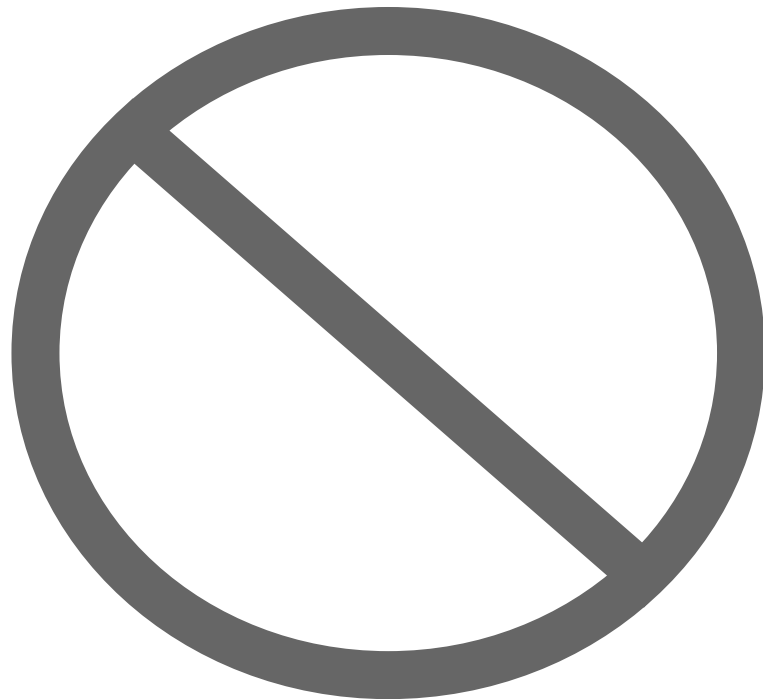

- Block for every field
- Per-instance Views block settings
  - Items per page
  - The pager offset
  - The pager type
  - Show/Hide fields
  - Reorder fields
  - Configure filters
  - Disable filters

# Media

As an editor, I want lots of tools to manage media files.

# Media Modules

- File Entity
- Media Entity
  - Media Entity Image
  - Media Entity Twitter
  - Media Entity Slideshow
- Entity Browser
- DropzoneJS
- Entity Embed

# Editorial Workflow

As an editor, I tools for writing, reviewing, and scheduling content.

# Editorial Workflow

- Core:
  - WYSIWYG Editor
  - Preview by view mode
  - Reorganized edit form
  - Quick edit
- Contrib:
  - Moderation: [https://www.drupal.org/project/workbench\\_moderation](https://www.drupal.org/project/workbench_moderation)
  - Scheduling: <https://www.drupal.org/project/scheduler>
  - Diff: <https://www.drupal.org/project/diff>

# Other

- Administrative Views
- Views Bulk Operations
- Actions
- Page Manager
